Index to Volume XII

Page numbers preceded by '(P)' refer to the summaries of papers at the Meetings of the British Society of Gastroenterology and other Societies.

Abdominal pain, acute, comparative analgesic effects of phenazocine hydrobromide (Narphen) and morphine sulphate in, double-blind clinical trial of, 51
ABO and Rhesus blood groups in gastric cancer, in relation to site of origin of tumour and age and sex of patient, 570
—— blood groups, differences in, relation to serum and salivary protein and immunoglobulin levels, 646
—— —— —— in gastric carcinoma associated with pernicious anaemia, 465
Achalasia, treatment with pneumatic dilatation, 268
Acid in small intestine, reactions in health and disease to, 67
Acid-base balance of blood, effect of prolonged pancreatic secretion in conscious dog, 918
Acidosis, renal tubular, and autoimmune liver disease, 153
Acrodermatitis, papular, infantile, Australia antigen in (P), 763
Adenomatous polyps of rectum and colon, 468
AFIFI, F. *See* BALABAUD, C., AFIFI, F., *et al.*
Africa, East, areas with varying frequency of oesophageal cancer, search for nitrosamines in spirit samples from, 1015
Africans, Zambian, with and without systemic bacterial infections or tuberculosis, glucose absorption kinetics in, 1001
AFROUDAKIS, A. *See* HADZIYANNIS, S., MERIKAS, G., *et al.*
Age and sex in gastric cancer, relation to ABO and Rhesus blood groups, 570
AGNEW, J. E., and HOLDSWORTH, C. D.: The effect of fat on calcium absorption from a mixed meal in normal subjects, patients with malabsorptive disease, and patients with a partial gastrectomy, 973
——. *See also* WHELTON, M. J., KEHAYOGLOU, A. K., *et al.*
AHULU, F. I. D. KONOTEY-. *See* KONOTEY-AHULU, F. I. D.
AJDUKIEWICZ, A. B., GRAINGER, J., SCHEUER, P. J., and SHERLOCK, S.: Jaundice due to iprindole, 705
Albumin, localization in hepatocytes by immunocytochemistry (P), 766
—— synthesis, rate of, in enzymatically isolated rat liver cells (P), 765
Alcohol and aspirin ingestion in patients with gastrointestinal haemorrhage, 819
——, metabolic and structural effects on liver, 222
Alcoholic pancreatitis, comparison in rat and man, 377
Alkaline phosphatase and 5-nucleotidase, elevation in liver obstruction, mechanism of (P), 767
ALLAN, J. G. *See* RUSSELL, R. I., ALLAN, J. G., *et al.*
ALMEYDA, J. *See* BARNARDO, D., ALMEYDA, J., *et al.*
ALP, M. H., and WRIGHT, R.: Immunoglobulins, virus-like particles and autoantibodies in bile (P), 859
——. *See also* WRIGHT, R., and ALP, M. H.
ALUWIHARE, A. P. R.: Electron microscopy in Crohn's disease, 509
——: An ultrastructural study of the effect of neomycin on the colon in the human subject and in the conventional and the germ-free mouse, 341
AMDRUP, E., KRAGELUND, E., HUMPHREY, C. S., SMITH, R. B., GOLIGHER, J. C., and JOHNSTON, D.: Evidence for partial vagal reinnervation of the stomach after highly selective vagotomy without a drainage procedure (HSV) for duodenal ulcer in man (P), 866
American Gastroenterological Association: 72nd Annual Meeting, 678
Amino acids, effect on sodium and water absorption from small intestine (P), 854
Ammonia production and transport in colon (P), 863
Amoebiasis, pathogenesis of, 483
Amylase secretion and calcium efflux from isolated rat pancreas (P), 862
——, urinary excretion, hourly rate of, and serum amylase and lipase levels in gastrointestinal and pancreatic disorders, 884
——, —— ——, —— —— ——, —— —— —— —— —— —— —— —— in normal subjects and in renal disease, 878
Anaemia, pernicious, G cells in, 319
——, ——, gastric carcinoma associated with, ABO blood groups in, 465
——, ——, serum gastrin levels in, radioimmunoassay of, 97
——, sickle-cell, gastric acid secretion in, 197
Anal continence, relation to anatomy and physiology of anorectal region, 844
—— lesion as sole presenting symptom of intestinal Crohn's disease (P), 865
ANDERSON, C. M. *See* BROWN, G. A., OSHIN, A., *et al.*
ANDREIS, P. G. *See* ARMATO, U., and ANDREIS, P. G.
ANNERSON, V. *See* GHAZI, H. A., and ANNERSON V.,
Anorexia nervosa, case of, with self-induced electrolyte depletion 284
Anoxia, protection of liver cells against, and measurement of cell membrane potential (P), 772
Antacids, proprietary, antipeptic activity of, test of, 897
Antibodies, circulating, to gastric intrinsic factor and parietal cells, prevalence and significance in gastric carcinoma, 903
——, secretory, to food proteins in coeliac and non-coeliac children (P), 494
——, smooth muscle, human, reaction with liver cells (P), 494
——. *See also* Autoantibodies
Antigen, hepatitis-associated. *See* Hepatitis-associated antigen
Antigens in colonic carcinoma, 1
——, —— —— ——, labelled (P), 860
Antipeptic activity of proprietary antacids, test of, 897
Antrum, motility, effect of highly selective vagotomy (P), 866
APOSTOLOV, K. *See* FOX, R. A., DUDLEY, F. J., *et al.*
ARDILL, J., BUCHANAN, K. D., and KENNEDY, T. L.: Fasting plasma gastrin levels in man (P), 860
Argentaffin cells in ulcerative colitis, 636
ARMATO, U., and ANDREIS, P. G.: Vinblastine treated primary cultures of rat liver: an experimental model for the detection of a specific enzyme inducing action of phenobarbital on *in vitro* hepatocytes (P), 769
Aspirin and alcohol ingestion in patients with gastrointestinal haemorrhage, 819
—— preparations, gastric bleeding due to, assessment of (P), 869
ASVADI, S. *See* DUTZ, W., ASVADI, S., *et al.*
Atropine, effect on serum gastrin in duodenal ulcer, 899
——, intravenous, ionic movement across normal gastric mucosa after, effect of intragastric bile salts, 257
Australia antigen. *See* Hepatitis-associated antigen
Autoantibodies, circulating, serum immunoglobulins and immunoglobulin-containing cells in liver, comparative study of (P), 770
—— in bile in subjects with and without liver disease (P), 859
—— to reticulin and/or basement membrane in gastrointestinal diseases, relation to immunoglobulins and dietary antibodies (P), 858
Autoimmune liver disease and renal tubular acidosis, 153
Autoimmunization against liver, controlled study in inbred rat strains, 458
AXON, A. T. R.: Sugar absorption studied by an exsorption technique (P), 856
Azathioprine in primary biliary cirrhosis, controlled trial of (P), 770
—— treatment in Crohn's disease, double-blind trial of (P), 864
—— —— in hepatitis-associated antigen positive active chronic liver disease (P), 770
BACON, P. A., BERRY, H. W., and BOWN, R. L.: Studies of cellular immunity of liver disease (P), 859
Bacteria, agglutination by secretory IgA from gastrointestinal secretions and colostrum (P), 860
—— and bile salts, role in intestinal monosaccharide malabsorption in rat, 683
—— and biliary tract disease, 487
——, contamination of small bowel by, effect on intestinal absorption, 403
——, small intestinal, and folate status in gastrointestinal disease, 27
Bacterial infections, systemic, glucose absorption kinetics in Zambian Africans with, 1001
BAIRD, I. M. *See* SUTTON, D. R., BAIRD, I. M., *et al.*
BAKER, H. *See* BARNARDO, D., ALMEYDA, J., *et al.*
BAKER, W. N. W.: Ileo-rectal anastomosis for Crohn's disease of the colon, 427
——, and MILTON-THOMPSON, G. J.: The anal lesion as the sole presenting symptom of intestinal Crohn's disease (P), 865
BALABAUD, C., AFIFI, F., POINTARD, L., and BENHAMOU, J. P.: Liver removal efficiency of colloidal radiogold in the dog: an approach using the multiple indicator dilution method (P), 767
BANK, S.: Fifth Meeting of the South African Gastroenterological Society (Report), 91
——. *See also* SACKS, H., BANK, S., *et al.*
BARKER, J. *See* GRACEY, M., BURKE, V., *et al.*
BARNARDO, D., ALMEYDA, J., BAKER, H., LANDELLS, J., and LEVENE, G.: Hepatic structure and function in psoriasis before and after treatment with methotrexate (P), 863
BARON, J. H. *See* HANSKY, J., KORMAN, M. G., *et al.*
BARRY, R. E., SALMON, P. R., and READ, A. E. A.: Small bowel mucosal changes in psoriasis (P), 495

——, ——, ——, and WARIN, R. P.: Mucosal architecture of the small bowel in cases of psoriasis, 873
Basement membrane, autoantibodies to, in gastrointestinal diseases, relation to immunoglobulins and dietary antibodies (P), 858
BATTERSBY, C., and GREEN, M. K.: The surgical significance of methaemalbuminaemia, 995
BAUER, D. J. *See* FOX, R. A., DUDLEY, F. J., *et al.*
BECKETT, J. *See* WILLOUGHBY, J. M. T., KUMAR, P., *et al.*

BEELEY, M., and GRECH, P.: Pyloric incompetence in chronic non-specific lung disease, 102
BEER, T. S. LOW-. *See* LOW-BEER, T. S.
BENHAMOU, J. P. *See* BALABAUD, C., AFIFI, F., *et al.*
——. *See* DESJEUX, J. F., DHUMEAUX, D., *et al.*
BENTLEY, J. F. R.: Constipation in infants and children, 85
BERNIER, J. J. *See* MATUCHANSKY, C., and BERNIER, J. J.
——. *See* MODIGLIANI, R., and BERNIER, J. J.
BERRY, H. W. *See* BACON P. A., BERRY, H. W., *et al.*
Beta-glucuronidase activity, assays with different substrates in liver disease and Gilbert's syndrome (P), 760
BIANCHI, P. A. *See* RIGHETTI, A. BIANCHI-BOSISIO, BIANCHI, P. A., *et al.*
BIANCHI-BOSISIO RIGHETTI, A. *See* RIGHETTI, A. BIANCHI-BOSISIO
Bile acids, effect on small intestinal absorption of glucose, water and sodium (P), 855
—— ——, metabolism, relation to cortisol metabolism in cholestasis (P), 771
—— ——, serum levels in liver disease, 145
—— flow and bile salt excretion, effect of indocyanine green, as model for study of cholestasis (P), 756
—— in liver disease, immunoglobulins, virus-like particles and autoantibodies in (P), 859
—— production, canalicular, influence of theophylline in dog (P), 756
—— reflux in gastric ulcer, effect of healing, 552
—— salt, abnormal, in primary biliary cirrhosis (P), 771
—— —— infusion, choleresis induced by, in patients with and without liver and biliary tract disease (P), 757
—— salts and bacterial flora, role in intestinal monosaccharide malabsorption in rat, 683
—— ——, intragastric, effect on ionic movement across normal gastric mucosa after intravenous atropine, 257
—— ——, role in diarrhoea in ulcerative colitis, 632
Biliary and parenchymatous liver disease, ^{47}calcium absorption in, 978
—— cirrhosis, primary, abnormal bile salt in (P), 771
—— ——, ——, azathioprine in, controlled trial of (P), 770
—— ——, ——, portal hypertension in (P), 496; 830
—— excretion of unconjugated dyes in Dubin-Johnson syndrome (P), 758
—— obstruction, acute, effect on hepatic cholesterol biosynthesis in cholesterol-fed rat (P), 863
—— ——, vitamin E absorption in children with, 579
—— pressure, effects of morphine, pethidine, pentazocine and phenazocine compared, 218
—— tract disease and bacterial infection, 487
—— —— ——, choleresis induced by secretin and bile salt infusions in (P), 757
Bilirubin monoglucuronide, chemical proof for existence of (P), 759
Bilirubinglucoside and bilirubinxyloside, enzymic formation of (P), 759
BILLING, B. H. *See* JANSEN, F. H., and BILLING, B. H.
——. *See* MURPHY G. M., JANSEN, F. H., *et al.*
Biopsy, gastrointestinal, Watson capsule in, spring-loading device for, 65
—— material from liver, cytochrome P-450 content and microsomal enzyme activity in (P), 760
——, suction, of small intestinal mucosa with direct nasogastric intubation, paediatric tube and capsule for, 399
BIRKETT, D. A. *See* MARKS, J. M., ROBERTS, D. F., *et al.*
